PROFESSIONAL EXPERIENCE

The King Art Studio

Assistant Art teacher

01/2025 – present | Las Vegas, United States of America

I teach my own class or assistant other teachers teaching to 4-12 students how to learn various forms of media.

PROJECTS

Creating an Ai model of my art

and collecting survey data.

I created around 20 pieces of my art, and then using stable diffusions dream booth created an ai of my art. I did this twice and collected data from friends and family, around 40 people in total, to see which ai preformed better.

Better - Animation that will be broadcasted across the district

This is an animation to motivate fellow high schoolers to better themselves, focusing on vape addiction and cell phone addiction.

Making a video game

I made a parkour game that would be played partially digital and physically. In the game the player would receive a goal type then bet on if I can make the shot or not in real life.
